

THE FUTURE

WHO CAN DO IT

We suggest this project is done by children above age 8 and under the age of 15. It can be done either from home or in school.

WHAT YOU'LL NEED

Paper, pens, paints, crayons or pencils. You may need a scanner or camera so you can upload it to your school's website.

HOW TO DO IT

You can do this project in any format you like. It could be a drawing or a painting. We want to see how you view the future. We have decided to define the future as 2050.

You have complete freedom to decide what part of the future you will depict. It could be inside a home, outside, in a school, anywhere. It could be a view of our planet in almost 30 years time. The choice is yours.

Once you have decided on the content of your picture, decide how you are going to show it. Are you going to draw them, paint them or have you got access to a computer drawing package? The decision is yours.

Next you can begin to produce your picture.
