

# OWL BUT'S WORLD OF LEARNING

at the heart of knowledge

Hi, here are the instructions for a project we'd like to try.

## HISTORY AS IT HAPPENED

This is a very simple project to explain. Your teacher will either tell you to take an event shown on one of our Times Past timelines and write a report about it in less than 500 words, or they will give you a specific event from history. Simple.

You can write from one of two different points of view.

- You can imagine you were actually part of the event and are writing to a friend who wasn't there
- You can write it as if you were a journalist who wants to tell people about what went on

The choice is yours. The end result should look like a letter or a page from a newspaper. You could add a picture if you want.
